

MAKE THE RIGHT DECISION FIRST TIME ROUND!!

Thank you for your interest in **LIGHTING INTERIORS**.

We are a family-owned business that has been operating since 1986. Owner Gary Lee has worked in the lighting industry for over 20 years. He can help you choose the best lighting for your home or business.

We operate from our showroom in the Home Base Shopping Centre, just west of Home Base Expo. The showroom has a wide selection of quality lighting products, ranging from ceiling lights to floor and outdoor lighting.

We stock all the fittings for the products we have on display in our extensive showroom. We are a one stop shop and can handle your every need.

Make the right decision first time round! Save yourself the inconvenience of unknowingly purchasing the wrong products for your needs.

FREE DESIGN SERVICE

Are you in the process of building or renovating a home? Provide us with your house or renovation plans and we will recommend the best lighting solutions.

LIGHTING INTERIORS

Domestic and Commercial Lighting

GUARANTEE

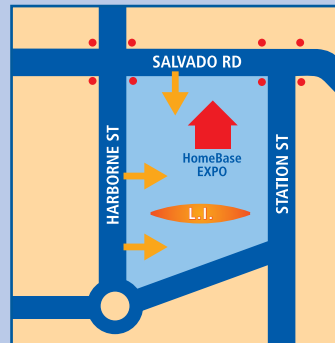

When you visit the showroom, you will be guaranteed the best possible service.

We will take time to listen, explain and recommend each light fitting and its accessories, so you receive the best possible solution for your lighting needs.

We pride ourselves on customer service and will assist you in any way we can to ensure you are satisfied with the final outcome.

LOCATION - We are just around the corner!

Our showroom is located right outside of Home Base Expo. Exit from the west entrance of Home Base and just walk across the car park.

LIGHTING TIP: *Consider the ongoing costs!*
The light fitting may be everything you dreamed of, but have you enquired about hidden costs like lamp replacement? And where these items can be purchased from?
At **LIGHTING INTERIORS** for every item we stock, we also carry the required accessories.

LIGHTING TIP: *What is the function of the light?*
When purchasing a lighting product, remember that apart from aesthetics you also need to focus on the function of the light - is it decorative? Is it to illuminate precious artworks?
At **LIGHTING INTERIORS** we can show you how different lights work so you make the right choice.

LIGHTING TIP: *Consider energy efficient solutions!*
With the development of new types of lighting products, electricity costs can be cut by up to 40% whilst simultaneously reducing environmental strains.
At **LIGHTING INTERIORS** we would be happy to suggest some ideas of how to illuminate your home in a more cost-effective way.
